RE: Eastpoint Sewershed Sanitary Sewer Rehabilitation
Stormwater Management Variance
Back River Watershed
Project I.D. M190350
Tracking Number: 07-20-3309

Dear Ms. Berry;

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. Section 33-4-113 (a) (2) allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of the design standards would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the rehabilitation and repair of the public sanitary sewer system in the Eastpoint Sewershed by cut and cover. The existing cover conditions will be re-established once sanitary sewer rehabilitation and repairs are complete. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area or runoff resulting from the project.

Please contact Jeannette Applauso, P.E. at 410-887-3768 should you have any questions.

Very truly yours,

/signed/

Kritty Udhin, P.E., Manager
Stormwater Management
